BRYNN MCGARRY WATSON

EXPERIENCE

2015-2016

Junior Web Developer at Three72 Digital

Duties

1. Custom wordpress CMS development.
2. Inhouse Joomla developer.
3. Developed custom modules and themes for Wordpress and Drupal environment.
4. Development and maintaining interactive maps.
5. E-commerce integration and development in both wordpress and Magento 1 and 2 environments.
6. Creating WCAG 2.0 AA accessible websites.
7. MySQL Databased management.

While working for Three72 Digital creating my own wordpress template was something I really enjoyed and found particularly memorable and challenging. Another thing I found enjoyable while working with the team at Three72 was working in Drupal and its tight environment.

2014-2015

Junior Web Designer and Developer at 23Creative

Duties

1. Custom Joomla CMS development.
2. Creating WCAG 2.0 AAA accessible websites.
3. Dealing with clients and their projects, including meetings and progress reports.
4. Complete design and develop processes for all jobs.
5. E-commerce integration and development in both Joomla and Magento environments.
6. Website maintenance for Wordpress, Joomla and Magento environments.
7. MySQL Database management.

Working at 23Creative was my most enjoyable experience in the web development industry. While I worked there I was immersed in almost all CMS environments and was taught to develop pixel perfect websites. Working here provided me with skills that I used almost everyday from efficient file structuring to manually removing virus' from hacked websites and databases.
